

Stage 14: Reloading Options . . . Options

Bay 7

Designed by: Alan Vail (Metrowest Tactical)

SCORING: Unlimited, 18 rounds min
TARGETS: 9 IDPA, 4 non-threat
SCORED HITS: Best 2 on paper
CONCEALMENT: Required

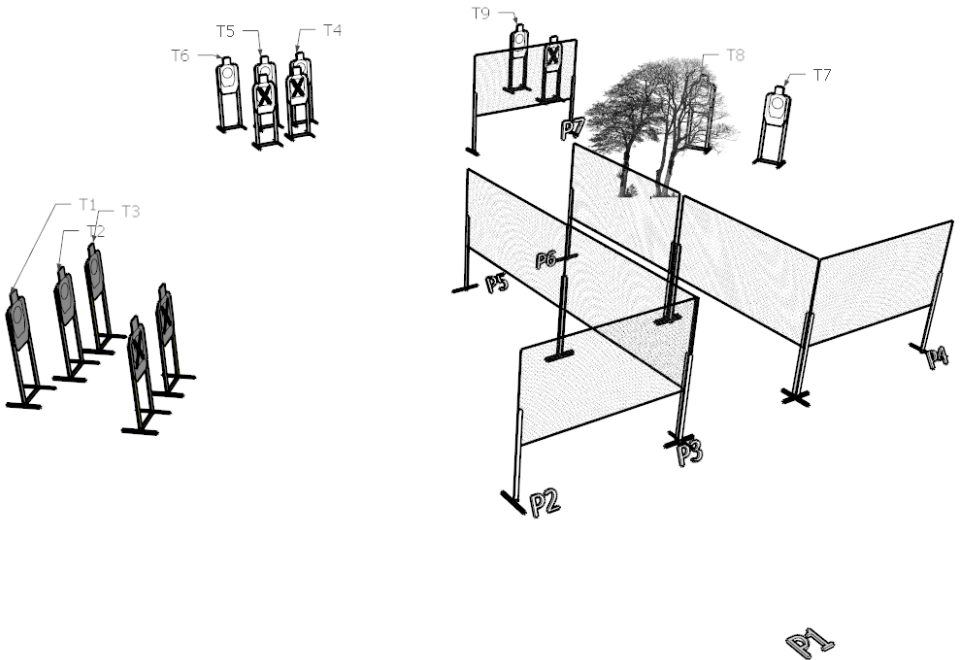

START-STOP: Audible - Last Shot
PENALTIES: Per IDPA rules

SCENARIO: You just finished shooting an IPDA match when you are ambushed. Unfortunately, you didn't have a chance to top off your ammo carriers. Try to remember the new IDPA reloading rules.

START POSITION: Standing at P1. Firearm loaded with 6 rounds and holstered. 2nd ammo feeding device loaded to 6 rounds. Remaining ammo feeding devices loaded to division capacity. Ammo feeding devices on body. Hands relaxed at sides.

PROCEDURE: Engage T1 - T9 following proper cover and reloading rules. T1-T3 may be engaged in the open, on the way to P2/P3, at P2, or at P5. T4-T6 may be engaged using cover at P2 or P3. T7-T9 may be engaged from P4, or at P6 & P7. T8 is a "surprise" target between P6 and P7 hidden by soft cover tree.

NOTES: Second ammo carrier used must be the one that is loaded to six rounds.
