

POSTAL STAGE 2 “REVENGE”

The parents hear the noise and come over, at which time you return their baby. More of the kidnappers were watching from a distance. The evil doers promise to hunt you down to the end and get the baby back. You must make sure they are stopped.

Start Position Standing at P1, arm’s length from the barricade, hands at sides.

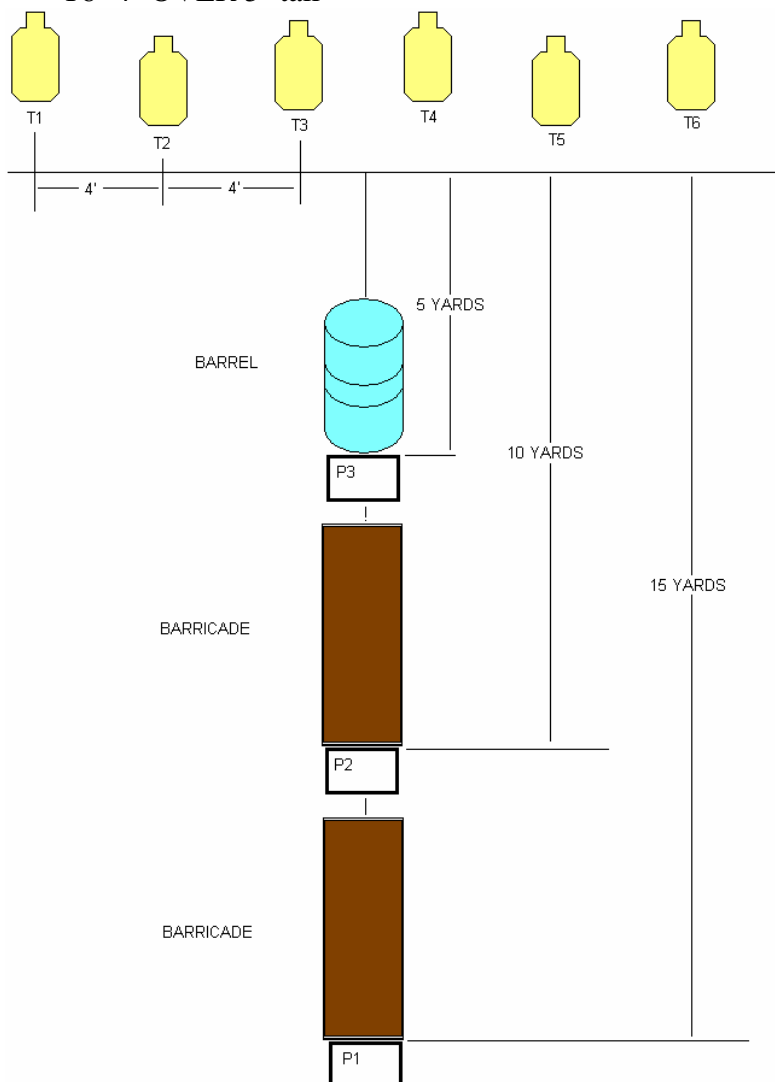

At Start Signal Draw and engage T1 through T6 in tactical priority (slicing the pie) with one shot each. Advance to P2 and engage T1 through T6 in tactical priority with one shot each. Advance to P3 and using low cover (no shooting above the barrel) engage T1 through T6 in tactical priority with one shot each. Reload as necessary.

Shot Count Vickers. Three scored hits per target. Eighteen shots minimum.

Supplies Six IDPA shoot targets and two barricades (as used in the classifier)

Set-Up Details Set up this stage like two classifiers side by side, but the targets will only be 4 feet apart. A barricade will be placed on the center line at 15 yards and 10 yards from the targets. A barrel is placed at 5 yards from the targets.

T1- 6’ tall
T2- 4’ OVER 4’ tall
T3- 4’ OVER 5’ tall
T4- 4’ OVER 5’ tall
T5- 4’ OVER 4’ tall
T6- 4’ OVER 6’ tall

The diagram illustrates a tactical layout. A horizontal line at the top represents a target line with six targets labeled T1, T2, T3, T4, T5, and T6. Below this line, a vertical line descends, passing through a cyan barrel, a brown barricade, and another brown barricade. Three positions are marked along this vertical line: P3 (top), P2 (middle), and P1 (bottom). Distances are indicated by horizontal and vertical lines: 4 feet between T1 and T2, 4 feet between T2 and T3, 5 yards between the barrel and P3, 10 yards between P3 and P2, and 15 yards between P2 and P1. The word 'BARRICADE' is written to the left of the brown rectangular structures.

T4- 4' OVER 6' tall
