Redesigned by: ken Lambert – original from NEPA IDPA library

**SCENARIO:** After another day in the snow you're cleaning your firearm when you are attacked by a local group of less than ethical gun dealers who want to relieve you of your firearm so they can sell it to someone who can't buy one legally. Since they don't want to pay for your firearm they fully intend on leaving you dead or at least unable to testify.

**PROCEDURE:** Drop the rag, load your firearm with magazine that is on the top of the barrel, and engage T1-3 while on the move to P2. PP1 can be engaged on the move or while at P2. PP1 activates non threat swinger. Engage T4&5 from cover at P2.

**SO/SETUP NOTES:** Non threat will be directly behind T3 body forcing shooters to shoot at head. Angle which T3's body is clear of the NT, the PP will be out of view. You cannot reengage T1-3 from P2. Swinger directly in front of T4 until activated
