

Cold Turkey 2014

Stage 4 – “No Turkey For You”

Designed by: John Matusiak@MWT

START POSITION: Seated at P1, gun loaded to division capacity and in the box. Ammo carriers on table. Knife in strong hand. Rope in weak hand.

SCENARIO: You are just about to carve the turkey on Thanksgiving when a bunch of armed turkeys invade your home. Defend your family and dinner! While engaging the first group you realize that turkeys make poor cover and head for better cover at P2.

PROCEDURE: At the signal, pull rope with weak hand to activate swinger, drop knife and retrieve gun from the box. Engage T1-T5 in tactical priority seated at P1 and/or on the move to P2. T1-T5 may be re-engaged from P2. Move to P3 and engage T6-T8. Popper behind T6 activates out-and-back T7.

NOTES: P1 provides cover while seated. Once shooter stands P1 cover effectively disappears and shots must be taken on the move. T1-T2 are more than two yards in front of T3-T5. Unused ammo may be left on table but partials from any tac loads must be stowed on body.
