

Metro West Tactical Friends of Revolver October 25, 2014

Stage 1 – I Go Left, Right?

Designed by: Alan Vail, Metrowest Tactical

START POSITION: Standing at P1 with weak hand holding onto steel popper. Firearm loaded to division capacity with an empty chamber, holstered, ammunition carriers on body.

SCENARIO: You are under attack and the only escape is to your left.

PROCEDURE: At signal, engage T1-T2 from P1. Steel popper must be released before proceeding to P2. For safety reasons, semi-auto shooters must rack firearm slide with weak hand. Move to P2 and engage T3-T4. Pressure plate at P2 activates charger T4. Move to P3 and engage T5-T6. Steel behind T5 activates moving target T6.

SO/SETUP NOTES: Popper at P1 starts at an angle so that when it is released it falls up-range and releases the swinger T1. When released, T1 immediately moves behind the NT such that only the minimum amount of head allowable is visible.

SCORING: Vickers count, 18 rounds minimum

TARGETS: 6 IDPA, 2 NT

SCORED HITS: Best 3 on paper

START-STOP: Audible – Last shot

PENALTIES: Per IDPA rules

CONCEALMENT: Required

RELOADS: Per IDPA rules
